## MUST HAVES

### **BIRTHPLACE OF PERFORMANCE**

The birthplace of performance boats will soon be home to a state-of-the-art yacht club marina. Vertical Yacht Club Thunder Alley in Aventura features a new wave of dry dock storage. The revolutionary system uses a laser-guided, computer-controlled overhead bridge crane to lift boats from the water in a cushioned cradle and slide them into a customized slip in a matter of minutes. The facility is also hurricane-proof. Members can access a concierge, spa, business center, and café. It's slated to open in December 2008.
